Art Unit: 1714

The amendment received 1 October 2004 has been made of record. Claims 1-11 are pending.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE '314.

The rejection of the previous office action is repeated here substantially as set forth in the previous office action with the exception that it is seen as obvious to utilize the trailer coupling abutment disclosed in the reference as a coupling for any type of vehicle where heavy loads and similar relative motions of the coupled elements are to be expected.

Applicants' arguments are not persuasive. Applicants' tipper vehicle abutment is seen as functioning similarly to a trailer coupling and, therefore, it would have been obvious to one of ordinary skill in the art to utilize abutments from a trailer coupling with the reasonable expectation that suitable results would ensue.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
